# WINTERIZING YOUR TRUCK

Get your truck in tip-top shape for the winter so you don't get caught out in the cold.

- Check the coolant freeze point
- Check the air dryer operation
- Drain air tanks
- Check and adjust brakes
- Replace windshield wipers
- Windshield washer operation
- Inspect and repair tire chains
- Check the air lines
- Load test batteries
- Service fuel filters
- Check tire pressure and tread
- Heater and defroster operation
